

ALLIANCE ELIANT

SUPPORTING MEMBERS AND FRIENDS

Dear Friends of ELIANT,

We are delighted that our circle of friends and sponsors is continuing to grow and that we now have 2065 supporters! We are greatly encouraged by your wish to engage with us in creating a Europe that holds a free space between East and West and where developments based on ethical values can take root in our culture instead of a primary focus on the glory and power of individual nations and their spheres of influence.

We are pleased to welcome Alexander Schwedeler as a third member of our management team alongside Michaela Glöckler und Susanna Küffer Heer. He is an experienced banker and business consultant and loves ELIANT. The umbrella organisation for Steiner Waldorf education (ECSWE) which is represented in Brussels, has agreed to take on the lobbying work for ELIANT in relation to this field of work.

As you will be aware ELIANT has occupied itself over the last year with the issue of TTIP, the proposed transatlantic trade treaty. Together with the International Association of Anthroposophical Doctors (IVAA), Demeter International (DI) and the European Council for Steiner Waldorf Education (ECSWE), ELIANT has arranged a two day conference in Brussels that will take place on 15th and 16th June 2015. The European Economic and Social Committee (EESC) is supporting us and making its facilities available.

The member organisations of ELIANT see little value in continuing to simply oppose this treaty. What will help is dialogue. We therefore want to enter into discussion with those in responsible positions in the EU Commission and with Members of the European Parliament. We want to speak to them as human beings and explain why it is so important that the European cultural values being promoted by ELIANT are incorporated into this treaty. We are confident that they will be open to our arguments.

ALLIANCE ELIANT

SUPPORTING MEMBERS AND FRIENDS

We are pleased that thanks to your support we are able to work further on the ELIANT initiative and hope that you will continue helping us finding more friends and supporting members.

With warm greetings

(for the ELIANT core members and founders)

Michaela Glöckler
